EASTSIDE SPRAYING SERVICE'S

~FALL LAWN RECOVERY PROGRAM

Our Shop Dog Pepper says,

"A beautiful lawn is a dog's best friend."

CARING FOR YOUR LAWN

is a year-long process. And we can help take the work and guesswork out of it for you!

EASTSIDE'S LAWN CARE PROGRAMS

Eastside's **Aeration and Fertilization Combo** is the best thing you can do for your lawn. It helps your lawn recover from summer stresses, gets it ready for winter dormancy, and readies it for the next spring growth. **And best of all** ~ fertilizing is only **\$45.50** up to 2,000 square feet of lawn!

FALL LAWN RECOVERY COMBO			
Lawn Size	Aeration	Fertilization	Fall Combo
1,000 sq. ft.	\$59.50	\$45.50	\$105.00
2,000 sq. ft.	\$77.50	\$45.50	\$123.00
2,500 sq. ft.	\$86.50	\$48.50	\$135.00
3,000 sq. ft.	\$95.50	\$51.50	\$147.00

Call today! For a Free Estimate ~ and Schedule Your Fall Lawn Recovery Combo

EASTSIDE'S PREMIUM LAWN CARE PROGRAM

Sign up for our **Premium Lawn Care Program** and let the **Eastside Lawn Care Experts** ensure the quality and health that your landscape investment deserves.

"Premium Lawn Care Program" is Eastside's exclusive lawn-care package that keeps lawns green and healthy all season long. Here's what you get:

- Six applications of liquid or dry granular fertilizer
- Moss Control
- Two aerations per year
- Weed Control Application
- One lime treatment
- Crane fly treatment
- **Service calls between treatments are free!**

IMPORTANT BENEFITS OF:

AERATION

Core aeration does great things for your grass. By pulling plugs of soil, it breaks the built-up layer of thatch and the hard compacted soil—allowing water, oxygen, and nutrients to reach the grass roots.

WETTING AGENTS

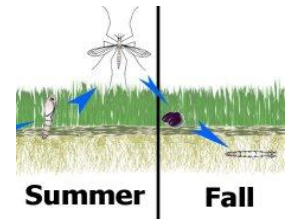

Soil wetting agents reduce the surface tension—allowing water to penetrate into the soil.

LIME APPLICATION

Lime applied at this time of year activates minerals, i.e. calcium, magnesium, and potassium which greatly improve the overall effectiveness of a regular lawn fertilizer program.

CRANE FLY = BIG PROBLEMS

Crane fly larvae will damage your lawn by feeding on the root crowns of your grass leaving large bare patches.

Schedule your Crane Fly treatment today and let our licensed technicians protect your yard with precise timing—controlling infestation of your most valuable asset — a beautiful yard surrounding your home!
