 Operated Since 1947*

Celebrating 60 Years of Quality Service

Doing It Naturally!

BIOPELLETS
NOW AVAILABLE FOR HOUSE
PLANT, CONTAINER PLANT AND
GARDEN ENTHUSIASTS!

This slow release nutrient pellet will increase plant growth and production, help retain moisture, and increase the general health of the plant. No re-potting and no other fertilizers are needed.

- Use 4 pellets for each 6" pot size. (Increase 1 biopellet per add'l inch)
- In furrow at planting time, use 1 about each 6".
- Reapply every 4 to 8 weeks

BioPellets contain fish meal, live microbes and stimulating enzymes to provide your plants with superb nutrition.

BIOPELLETS ~ MICROBIAL TREATMENT
